Dear Sirs:

Confirming the teleconference call of August 17, 1983 between Agency and MSDGC staff regarding wells number 2 and 4 at the 103rd Street and Doty Avenue Closure site, the MSDGC agrees to proceed as follows:

1. Submersible pumps will be installed to pump down the wells.
2. Prior to sampling, wells #2 and #4 will be pumped down. After recovery, the well will again be pumped down (within an approximate period of two weeks following initial pump down) and samples taken.
3. Sampling will be accomplished quarterly and the analytical data will be submitted together with data from wells #1 and #3.

Very truly yours,
